LOCAL WHOLESALE TRADE

PLOUR CONTINUES FIRM AND MILL-ERS ARE HUNTING FOR STOCK.

Wholesale Grocers Enjoy Excellent Trade and Dealers Hold Firmly to Quotations-Grain Market.

The flour market continues firm, notwithstanding the fact that speculative wheat is easier than at any time for some weeks past. This, seemingly, has no effect on the stock supply, and millers and mills are hunting around for stock to grind. The wholesale grocers are having excellent trade, and all dealers are holding firmly to quotations. The coffee market is reported firmer on cables telling of bad weather in Brazil. New crop coffees are said to be poor in style and roasting merit. Sugars are unchanged, but very firm in primal markets. On Commission row there is considerable activity. Fruits for canning purposes are selling better than at any time in the past season. Not many grapes have yet reached this market. Sweet potatoes are coming in freely and quotations are painted, \$2.75. easier. Celesy is more abundant and prices are weakening. String beans hold their own fairly well, but the quotations are 37c per gal; coal oil, legal test, 10@15c. hardly as strong as they were. Home tomatoes are coming forward more liberally and prices are weakening. Tropical fruits are in good supply at unchanged prices. Bananas, however, are not very plentiful, and prices are firm. Irish potatoes are arriving quite freely and our quotations are ar strong as conditions will bear. Green apples are coming in in large quantities and some of the fruit is of fine quality. Still there is much of inferior quality. Plum, pears and peaches are in good supply and prices are steady as quoted. The poultry market for springs is easier in tone. while hens are firm at prices quoted. Other lines of poultry rule steady at our quotations. Eggs are really in short supply and the average, 11c; 9 to 10 lbs average, 115c. In in small lots better than our quotations are paid. In the East prices of eggs are firm, but not much higher than in this market. The Eastern market is drawing its supply largely at the present time from the Northwest. Increased arrivals and weaker prices, however, are predicted by the produce men next month. Choice butter is in good request. Poor stock moves slowly. A wholesale dealer yesterday remarked that it is worthy of note that a much larger quantity of good butter is arriving than in former years, Indiana butter makers having become convinced that

ATTENDANCE AT NEW YORK STOCK

Prices Declined Early, but Recovered on Small Dealings-Money Situation and Bond Market.

character as that of yesterday, and little distribution of stock was effected by inket might make hazardous. Standard Oll capitalists in the market.

may turn against New York at any time.
Call loan rates continue easy, but the time money market is hardening appreciably.
The banks point out that it is their purpose to conserve their resources for regular commercial needs and the quoted rates represent the terms for those purposes. Rates otherwise are matters of private The stock market contingent is still inclined to disappointment over the doubts expressed as to currency legislation at the the market with heavy supporting orders coming session of Congress. The day's movements in the grain and cotton markets were favorable to stocks, the decline in prices there indicating improved chances for the crops. The tone of sentiment in the iron trade was more cheerful to-day, reports indicating that the down-

ward course of prices has caused some into the yacht race, and after the race was largely diverted to the bulletins of the race. With the decrease in the activity of the market a large short interest was left as the day progressed. Prices recovered steadily, and on small dealings, and closed firm at about the best of the day. Net were irregular and turned heavy after the opening. Total sales had a par value of \$1,322,000. United States bonds were all unchanged on last call.

Following are the day's share sales and the recorded price changes;

After Noon the Course of the Stock Market Was Upward.

[Porterfield & Co.'s Telegram.] NEW YORK, Aug. 20 .- As anticipated, there was some further selling this morning, which resulted in from one to two points decline. This gave the opportunity to buy on easy spots as we advised yesterday. Around the noon hour the market hardened and the course was upward until the close, with the majority of the list not only recovering their early loss, but showing improvement over last night's price. > Large Interests in the Market. [A. R. Thompson & Co.'s Telegram.]

NEW YORK, Aug. 20.-After a rather weak opening the larger interests came into and prices stiffened. The buying throughout the day has been from the best quarters, which tended to check any further operations by the bears, but did not induce a great deal of short covering. Profit-taking sales seemed to have been pretty well cleaned up, and the market appears to be in a better position to respond to fall operations. The public showed a disposition this afternoon to come into the market. The probability is that prices will be rather irregular for the next day or two, with, however, an upward tendency.

There was some difference of opinion as to the extent of the advance, but it was generally admitted that any loss in prices heretofore this week had been fully regained. The supply of attle fat enough to kill was exhausted promptly at opening prices, and no doubt many more of this description could have found an outlet on | four hours ending at 5 p. m. hogs, and with also a good demand from local packers for that class they sold promptly at strong to higher prices. The medium hogs, as a rule, were not a great deal higher, but good light grades and strong weight pigs sold generally a higher. The heavier class of hogs was considerably neglected at the start, and early bids persuaded buyers to take the early supply at about steady prices. There were several loads of hogs came in late to-day, but all buyers were still in the field, and with fair competition closing prices were steady compared with those pre-vailing earlier in the day. WEAKNESS AGAIN PREVAILED IN

THE CHICAGO WHEAT PIT.

Lower Outside Markets and Favorable Crop Advices Elements That Kept

Prices Down.

CHICAGO, Aug. 20.-Weakness again prevailed in the wheat pit and September closed 3,40%c lower. September corn was off 14c, oats were up 14c and provisions were

from 20c to 25c nigher.

Trading in whee was of a light character and a nervous feeling prevailed. Favorable weather in the Northwest, together with indifferent cables, caused considerable com mission house selling at the start and open ing prices were weak, September being down %c to %c at 80%c to 80%c. Everything seemed to favor the bears, the outside markets being lower, while the primary receipts were large and crop advices favorable. With little demand, the market gradually declined until September had touched 79%c, when buying became better and rally ensued. The latter part of the session was dull and featurcless, but prices held about steady. September closed 36%c low- in use with artificial gas. er at 80% @80%c; December was also down %@%c, closing at 81%@81%c. Clearances of wheat and flour were equal to 136,300 bushels. Primary receipts were 651,900 bushels, against 848,700 bushels a year ago. Minueapolis and Duluth reported receipts of 196 cars, which, with local receipts of 114 cars-25 of contract grade-made total receipts

for the three points of 310 cars, against 185 cars last week and 500 cars a year ago. There was only a small trade in corn, and prices were lower under the influence of continued favorable weather and on the weakness in wheat. There was heavy selling early in the day and only a light demand, but later a fair, scattered demand developed, and with fewer offerings the market recovered part of the early loss. Steadiness prevailed the latter part of the session and September closed 4c lower at 51c, after selling between 50%@514c. December closed at 514c, a loss of 4c. Local receipts were 161 cars, with 28 of contract

Oats were again relatively steady, although the weakness in wheat and corn had some effect. Trade was largely local, with the selling somewhat in excess of the buying, although offerings were readily absorbed at easier prices. Favorable weather was a bear factor. After ranging between 34%@34%c and 34%c, September closed at 35%c, a gain of %c. December was also up %c, closing at 36%c. Local receipts were 162

Provisions were firm, chiefly because of a let-up in the selling pressure which had been in evidence recently. There was a good demand for ribs early, and with a small run of hogs and a stronger market at the yards provisions prices, advanced materially and held well throughout the day. September pork closed 25c higher at \$12.221/2; September lard was up 20c at \$8, and ribs Estimated receipts for to-morrow: Wheat,

EXCHANGE MATERIALLY REDUCED.

NEW YORK, Aug. 20.-There was more selling of stocks this morning of the same resistance was offered. Prices in consequence declined early and effective inroads were made on the shares advanced from the low level of the year, which had been achieved last week. The reaction has run to about 6 points in Rock Island and Amalgamated, which were the late leaders of the upward movement, and which have in turn led the downward movement. The very large volume of trading in Rock Island at the top level causes a belief that a large siders at that level and has given rise to the supposition in some quarters that the general market was under manipulation to facilitate this operation. There was no sign of the support and resistance to decline which helped the market upwards in the first stage of the recovery. This was accepted by the purely speculative contingent as an intimation that great banking institutions and influential capitalists do not favor a further advance in prices nor an active speculation at this time. There is an expectation in consequence that a period of duliness and sluggish fluctuations lies before the market. The rate at which the recovery was proceeding and the extent of the speculative commitments which were being made, seemed to arouse apprehensions of renewed entanglements which the coming requirements upon the money mar-Special significance was attached to the

NEW YORK, Aug. 20 .- Edward M. Shepard, counsel for William Brown, owner of 40 shares of the stock of the Daily News Corporation, asked the Supreme Court justice to-day to grant an injunction restrain-ing the sale of the Daily News, which has been advertised to take place at auction to-morrow. Mr. Shepard said that for many years the Daily News was run at a profit of \$100,000 a year and that the year before Mr. Munsey acquired possession the News made a net profit of \$72,000 and had in its "Now," said Mr. Shepard, "that \$90,000
